

## Timelapse System

### Infinity Imaging Systems

To capture the progress of your project, Hutchies recommends the Infinity Imaging System. It's a kit designed and built in Melbourne specifically for construction and use in harsh conditions and all types of weather events.

Infinity is a camera enclosure with associated solar power and a custom built mini PC that powers a separately sourced Digital SLR professional camera. It connects via a Telstra data sim and has immense remote control right from your computer.

In comparison to other systems the main benefit of Infinity is minimal ongoing costs and the fact you can move the equipment onto your next job. Some comparable systems can cost up to \$30,000 for only 12 months of use and you don't even own the equipment at the end. This way you get a lot more control over the system.

Please also visit <https://infinityis.co> for more information

#### Benefits

Your team will own the equipment at the end of the project	It's a durable kit and solid technology making it reliable
It can work in any conditions (tested in all environments)	Easy to install and move around as required on site
Gives you full control over accessing images on demand	Ability to share images to third parties easily
Solar powered with great low power design	Top quality Digital SLR camera with optional lenses
Airtight enclosure to ensure protection of equipment	Mini PC built in with 4G sim card that continuously uploads
Optically pure glass panel for an extra-clear shot	Backups of photos onto USB storage within the kit
Fully remote controllable for camera tweaks and adjustments	A range of timing options to get the right lapse sequence
Can be shipped anywhere in Australia	Backs up to Hutchies' ShareFile via secure FTP

**Recommended Cameras & Lenses**

IT will normally source a Nikon D3500 DSLR body and Sigma 10-20mm lens, which are best for wide angled timelapse photos.

**Costs for the Timelapse System (including optional extras)**

Item	Cost (ex GST)
Infinity Imaging System	\$4,500.00
<ul style="list-style-type: none"> <li>• Timelapse electronics</li> <li>• 8gb USB stick</li> <li>• 14.8v battery and all necessary cables</li> <li>• Full weather proof housing</li> <li>• Ball head and mount rails to mount camera inside</li> <li>• Equipment to mount camera in either landscape or portrait orientation</li> <li>• Tilt mounting bracket to attach to applicable mount plate</li> <li>• 10w solar panel, complete with IP66 rated weather proof plugs</li> <li>• Small tool kit to service and install the camera system</li> <li>• Camera battery adaptor to suit approved camera</li> </ul>	
Monthly ongoing service fee (payable to Infinity, not HB)	\$50.00 per month or lump sum upfront
Data Plan (supplied by Hutchies unlimited Telstra data)	\$60.00 per month
10m Hinged Pole (with mount plate)	\$2,400.00 + freight

**Costs for the Digital SLR Camera & Lens**

Item	Cost (ex GST)
Nikon D3500 DSLR Body (SKU 935011) supplied by Hutchies IT at cost	\$600.00
Sigma 10-20mm Nikon Lens (SKU 27479) supplied by Hutchies IT at cost	\$600.00

**Total Costs for Kit (minimum)**

Item	Cost (ex GST)
Infinity Timelapse System	\$4,500.00
Nikon Camera Kit (body + lens)	\$1,200.00
Monthly ongoing service fee (for Infinity Dashboard) payable to supplier	\$50.00 per month
Monthly data service fee (for Hutchies' Telstra sim card)	\$60.00 per month
<b>Total (ex monthly costs)</b>	<b>\$5,800.00</b>

Remember that your team will own this equipment at the end of the job and can be moved onto your next project.

**Ordering the Timelapse System**

If you have any questions before ordering, please get in contact with the Communications Team  
**Email** [communications@hutchinsonbuilders.com.au](mailto:communications@hutchinsonbuilders.com.au) or **Phone** +61 7 3335 059

If you're ready to order the system, simply place an order on the Hutchies Toolbox  
**Order Form** [toolbox.hutchies.com.au/timelapse](http://toolbox.hutchies.com.au/timelapse)
